VOLUME 4.

ALBUQUERQUE, NEW MEXICO, SATURDAY, DECEMBER 16, 1893.

NUMBER 6.

THE DESTITUTE!

Crowding into Chicago for Free Subsistence.

Terrible Accident at the Louisville Bridge.

Romantic and Insane Woman Under Arrest at Kansas City.

SANTA FE FINANCES.

Chicago, Dec. 15.—An army of tramps began pouring into the city when it was reported that a million dollars was being raised to feed and clothe the unemployed this winter. The kitchens this morning were crowded with strangers, who crowded out the city's hundred thousand destitute poor.

Bridge Disaster.

Louisville, Ky., Dec. 15.—At 10 to 20 this morning the fourth span of the Jeffersonville bridge fell in the river. Officers on the government boat Major McKinley are reported as saying that eighty lives were lost. The accident was witnessed by hundreds along the river. Twenty-five bodies so far have been recovered, being horribly mangled. The accident was due to the faulty mechanism of the bridge. The killed and injured are mostly workmen engaged on the bridge. The probable deaths from the accident will amount to about fifty.

Dr. McDonald Dead.

New York, Dec. 15.—President Remond, of the Santa Fe railroad, having returned from Europe, is said to have had no difficulty in financing all the obligations of that company. The Santa Fe is operating ten thousand miles of road and carries a tonnage of one hundred and three million dollars. Excepting twenty-six millions given for acquiring the St. Louis & San Francisco road the bondholders will hold all the stock. A remnant only is available for speculation purposes. The road is financially sound.

Bald Hatroad Week.

McKeesport, Pa., Dec. 15.—A passenger train on the Pittsburg, Virginia & Charleston railroad jumped the track at Banford station, thirty miles south of here, this morning and ran into the Monongahela river. A number are reported killed and fifteen or twenty injured.

Additional Particulars.

None killed; twenty injured, none fatally. The train came, except the conductor, escaped by jumping.

Gardner's Death.

The following are the particulars briefly stated, of the death of C. H. Gardner, whom J. F. Boyle, of Baton, desired some information regarding.

Wisconsin Diamond Discovery.

Madison, Wis., Dec. 15.—Last October son of Charles Devine, a farmer, found a bright stone in a clay bank. To-day the stone was found to be a genuine diamond worth about \$200. Geologists have long insisted that there was a glacial drift where the stone was discovered, which is favorable to diamond discoveries.

Thousands of Tramps.

Austin City, Texas, Dec. 15.—All this section of the state is overflowing with tramps, most of them loafers. Dozens have hand organs, horns and the like, and the atmosphere is lurid with ungodly noises. The influx is attributed to Governor Hogg's action sanctioning their capture of freight trains as means of transportation. They are a menace and nuisance to public and private property.

Mexican Revolutionists.

Denver, Dec. 15.—The paper of the Colorado received word here this morning from Fort Bayard, New Mexico, that a body of men were at Wilcox, Arizona, preparing to cross the border and join the Mexican revolutionists. General McCook has ordered all the forts along the line to watch for and arrest them.

Hanged.

Sedalia, Mo., Dec. 15.—Dick Robinson, colored, was hanged here this morning for the murder of Johanna Scholzman, a domestic in the family of Robinson's employer. The crime was committed to avoid marrying the girl as she threatened to have him arrested for seduction, and he strangled and choked her to death.

Fires in New York.

New York, Dec. 15.—The big furniture house of Thornton Brothers burned this morning, entailing a loss of a half million dollars.

Another Crash.

Kansas City, Dec. 15.—Mrs. Duggan, aged widow, was arrested here to-day on account of her peculiar actions. She abhors under the idea that she has a registered letter here containing a large amount, and that the postmaster and clerks are keeping it from her, intending

LABOR REPORTS!

Federation of Labor on Railroad Strikes.

Protest Against the Interference of Federal Courts.

Gov. McKinley will be Inaugurated Without Ceremony.

UNSAFE FEDERAL BUILDING.

Chicago, Dec. 15.—At to-day's session of the Federation of Labor the following supplementary reports were submitted by President Gompers:

STRIKES ON RAILROADS.

"There appears to be a tendency on the part of the courts and officers of the government to make all strikes, and particularly those on railroads, an offense against the laws of the country. Early in the year Judge Rick's issued an order compelling railroad employees to continue their work on strike duty, and convicted and sent to prison an engineer who had not complied with the order.

That such an interpretation of the interstate commerce law is plainly at variance without intent is held by eminent jurists, and I would like the fact that when that law was under consideration in the senate an amendment was proposed covering the exact conditions as contained in Judge Rick's order and defeated. The order of Judge Taft went even further in its effect upon the denial of the right to cease work in order to obtain fairer conditions of labor than even did that of Judge Rick's.

Your attention is called to the fact that the Postmaster General and the superintendent of the Railway Mail Service recommend in their reports the passage of a bill practically making the cessation of work (strike) of employees on railroads an offence against the laws of the United States and punishable by a fine of from \$50 to \$500, and imprisonment from six months to two years. The latter named officer in his report submits a bill framed upon the subject and the former approves it at the same time adding his definition of a mail train to mean any train even "with a single pouch or a call post card."

When nearly every other government of the civilized world is conceding the full right not only of organization, but also of the unhampered use of every legitimate means for the purpose of securing higher wages, longer hours, and better conditions of labor, it only becomes the officers of our republic to seek for her hindrances to intensify and burden the struggles of labor.

NATIONAL UNIONS.

In accordance with our well defined policy to not only organize our fellow workers in unions, but to protect and promote their interests, to form new national unions, we have organized three national trade unions. An attempt was made to organize a Laundry Workers' National Union, but had to be abandoned owing to the depression in trade at that time. The Teamsters' and Draymen's Unions have been requested to send delegates to a conference to be held in this city within the next few days for the purpose of forming a national union, and many of the representatives of these organizations have agreed here for this purpose.

Six national trade unions affiliated with the A. F. of L. in the past year, and we have reason to hope and believe that the International Machinist's Association will soon remove the useless obstacle which stands in the way and join the great family of trade unions under the national union, and many of the representatives of these organizations have agreed here for this purpose.

The time in the history of our brothers of the railway organizations has certainly arrived when they should be in closer touch and affiliation with their fellow workers. I would recommend that the Executive Council be authorized to appoint committees to appear before the conventions of these organizations with the purpose of securing their affiliation."

Republican Simplicity.

Columbus, Ohio, Dec. 15.—What may be termed "Quaker solemnity" will mark the forthcoming inauguration of William McKinley when he enters upon the second successive term of his gubernatorial control of the commonwealth. Heretofore the inaugurations of a state chief magistrate have been the occasion of considerable pomp and ceremony, including a general suspension of business on the part of commercial and store keeping community, a procession of political clubs affiliated with the faith of the governor-elect; and a great demonstration within the state-house grounds patterned very much after the inauguration of a president at Washington. Gov. McKinley, however, has very different views concerning the forthcoming function. He takes the ground that the prevailing financial conditions will not warrant a political or partisan display, and that the more Jeffersonian the inauguration the more it will be in consonance with existing conditions. No parades, no demonstration, no taking of the oath in the presence of a multitude, such is the ultimatum of the Young Napoleon. According to the plans laid out he will simply walk into the chamber of the senate, which body will be in session at the time, take the oath of office and return to the chambers which he has occupied for two years. It will be something unique in the history of Ohio that the inauguration of a governor has taken place without a single dollar of expenditure being attached thereto and saddled upon the public purse.

Called to Fort Wayne.

Mrs. W. A. Davis and daughter, of Winslow, are in the city, staying at the Windsor hotel. Mr. Davis having arrived from the west the day before. Mrs. Davis is called to Fort Wayne, Ind., on the receipt of a dispatch informing her of the severe illness of her aged mother. She and daughter will probably leave this evening, or remain over and take the fast east-bound passenger to-morrow morning.

The Result of a Trial.

CANNONKT, IND.—I have used Simon Liver Regulator, manufactured by J. H. Zellin & Co., Philadelphia, and found that for indigestion and liver complaint it is the best medicine I have ever used—E. E. Clark. Your druggist sells it in powder or liquid. The powder to be taken dry or made into a tea.

and convenient quarters in the Masonic Temple. When the court decided that it would be unsafe to hold any more sessions in the cattle trap structure at Clark and Adams streets it adjourned to meet in Milwaukee. The law, however, requires that a certain number of sessions must be held in Chicago, and this law has been justified by the fact that most of the business claiming the attention of the court originates in this city. The quarters reserved for the court comprise some eighteen rooms, of which twelve are on the fourth floor, three on the third and three on the fifth.

Wanted - A Delegate.

Editor Citizen:

late news from Washington informs us that the Utah enabling act has passed the house, and thus naturally suggests the inquiry, what has become of our act? Nobody in this locality seems to know anything about it. And the next question is, where is Delegate Joseph?

Everybody now seems to want statehood, and it would seem that when Utah has disappeared as it is with the Mormon infamy, goes through the house with practical unanimity. New Mexico if it had any one to attend to its business ought to be able to do at least as well. But if Mr. Joseph is in the land of the living why is he not where we pay him to be?

Surely he knows that congress is in session and that his presence is very urgently required there. A dispatch from him informing us that our bill had passed the house would have been a handsome Christmas box. But we will have to get along without that pleasure as best we may and trust to luck as we can't trust to Joseph to help us in this venture. Maybe he thinks that his duty calls him to take the stump in Union county instead of keeping his seat warm in Washington, but it is an opinion among the people that when a man is elected to congress, his place is at the capital of the nation attending to the interests of his constituents. Evidently Joseph differs with us and does just as it suits himself. It would be interesting to learn from him why he left Washington at the very time when he ought to be there and why he left our bill intact care of itself when the other territories which are Knocking for admission are pressing to the front zealously and effectively. There is a well-grounded belief that after having acted in destroying the principal industries of the people who have kept him in office so long he is now afraid to trust them with the task of electing state officers and thus fear has induced him to put off our admission to 1895 and now induces him to let us fall away behind all the other territories. If he does get a move on himself his plan schemes of free wood, free coal and free road will get through without his invaluable assistance. Hurry up, Mr. Joseph!

A. MORRISON.

SCHOOL BOARD.

The school board held a special meeting last evening. President McClellan in the chair, and all the trustees present. The petition asking that the old school district No. 37 be annexed to the city, was presented, and on the hearing of the W. T. U. telegraph office at that place.

P. J. McCormick and Guy Bennett of Prescott recently drove several hundred head of steers to Phoenix to fatten on alfalfa.

The election held last Monday in Tucson for city officers resulted in a complete sweep for the republican ticket by large majorities.

The criminal element in Arizona is smaller in proportion to the population than that of any portion of the thickly settled east.

The la grippe epidemic seems more general than it has ever been since the first winter of its advent to this country, in the winter of 1890.

A great many Colorado people are finding their way into Arizona. Many of them are rough miners and soon catch on to a "grub stake," placer or quartz location.

The bill for the admission of Arizona has received a favorable report from the house committee on territories. This forebodes the early admission of the territory.

It is said that there are more than fifty men engaged in deer hunting in the Mogollon mountains. Deer are more plentiful this year than they have been for several years.

So far there has been only about \$2,500 in taxes collected in Mohave county, says the Miner. And the chances are that more property will go on the delinquent list than ever before.

Says the Prescott Courier: A meeting of the stockholders of the Virginia Gold Mining company takes place on the 13th when, it is said, arrangements will be made to start up the Yarnell mine and mill.

There is an immense deposit of beautiful gray sandstone about ten miles southwest of Kingman, near the line of the Atlantic & Pacific railroad, that will some day be used for building purposes.

Miss Pauline Whitteman, one of the teachers in the Third ward school, sent her resignation, which was accepted with regrets, and Miss Ethelie Flournoy, sister of M. W. Flournoy, cashier of the First National bank, elected to fill the vacant position.

Miss Ruth Jenks was chosen as additional teacher.

After some minor matters, the board adjourned.

To the Next Grand Jury.

The preliminary trial of Juan Sanchez y Pena and wife, and Bartolito Sanchez, for the murder of Jose Ignacio Montoya at Las Padias the other day, which has been on before Justice Lockhart for three days, came to a close late yesterday afternoon, after the arguments of the attorneys, by the justice placing Pena under \$3,000 bond, and his wife and Sanchez under \$1,000 each bond. They furnished bondsmen, and immediately left for their homes at Las Padias. The territory was represented by W. C. Heacock and Jameson Chaves. Hon. Frank J. Hubbard and Modesto Ortiz appeared for the defendants.

Called to Fort Wayne.

Mr. W. A. Davis and daughter, of Winslow, are in the city, staying at the Windsor hotel. Mr. Davis having arrived from the west the day before. Mrs. Davis is called to Fort Wayne, Ind., on the receipt of a dispatch informing her of the severe illness of her aged mother.
